

AUSTRALIA FIRST PARTY

PRESS RELEASE

Nominations for the Native Australian Award

THE ORDER OF THE TOAD

are invited from Australian Citizens
to be formally declared on

**European Settlement Day
26th January**

GENERAL CRITERIA.

This award is derived from the vernacular heritage of Australia's pioneering peoples, who applied the term to those who betrayed fair dinkum values, or undertook what were considered un-Australian activities. The graphic symbol of the award, Bufo Marinus, [Cane Toad] should exemplify the character of any nominee - a terminal despoiler, necessitating complete removal from any influence in our Australian civilisation.

Nominations are restricted to individuals who could be classed either as Native Australian, or as an assimilable post war immigrant.

Persons nominated should have excelled in the prevailing Traitor Class:- globalist capitalists, and other internationalists working against the Great Cause of Independence for Australia, and the European identity of the Nation; money changers who advance economics as the prime determinant in society; multiculturalists undermining our Aussie culture and heritage; proponents of over population through mass immigration, and other exploiters pillaging the environment, and adding to the destruction of the unique eco-systems of our Native Land.

Please forward the name and address of the person to be nominated, with full particulars, including references to support the nomination, to the address below before 10th January. Include your own name and address.

Australia First Party
